Reason for Dallas Floodway Project

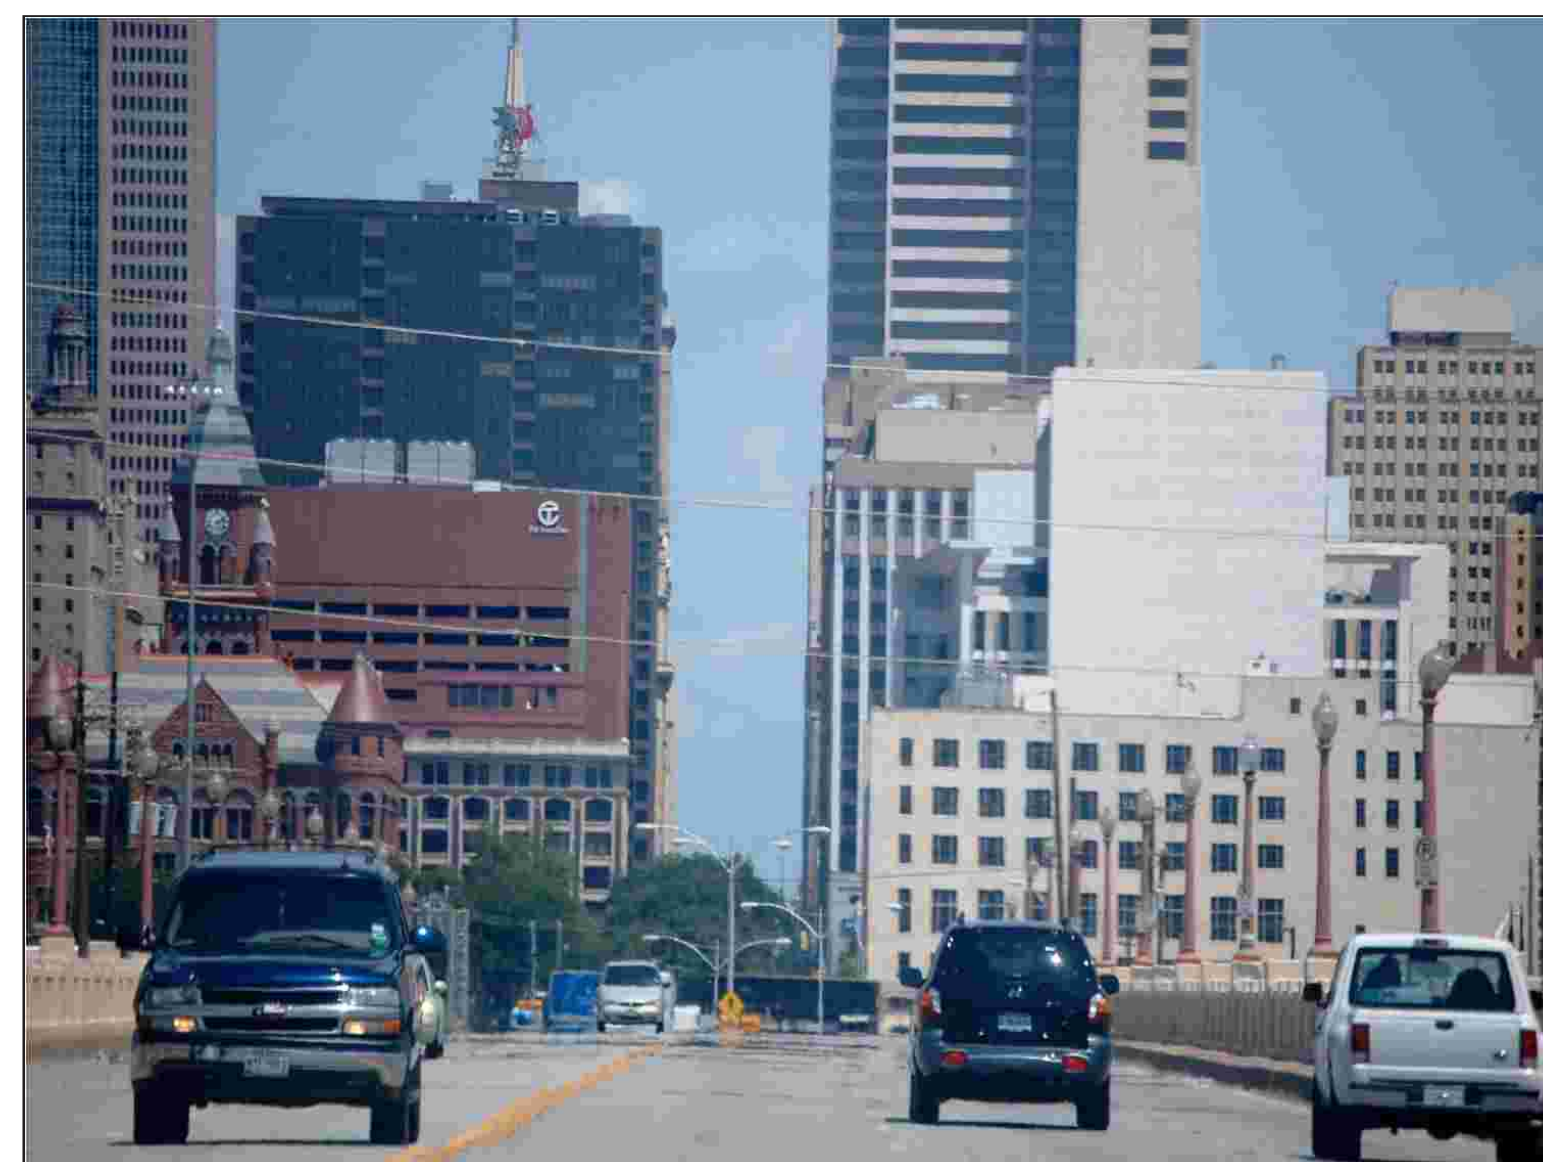

PURPOSE OF THE DALLAS FLOODWAY PROJECT

The purpose of the Dallas Floodway Project is to provide comprehensive riverine and stormwater flood risk management for the Trinity River corridor and the City of Dallas in a way that supports the achievement of regional environmental, recreation, transportation, and economic goals.

COMPREHENSIVE ANALYSIS

The U.S. Army Corps of Engineers, Fort Worth District, in partnership with the City of Dallas, is preparing an Environmental Impact Statement (EIS) to analyze the potential comprehensive environmental consequences resulting from the implementation of proposed levee remediation, flood risk management, ecosystem restoration, recreation enhancement, and other proposed projects in and around the Dallas Floodway in Dallas, Texas.
